FRINDEL OPTICS

SDS certified optical cable

SDS certified optical cable

Optical Cable certified by DOD , Military Aerospace

The DOD has also certified Optical Cable's manufacturing facility as a MIL-STD-790F facility. This certification requires compliance with government requirements for product design

Contact Us

c302_ANSI

Optical fiber consists of a thin glass filament in a polymer coating. Glass is a solid material produced by combining various raw materials (e.g. oxides, carbonates, etc.), melting these components together,
