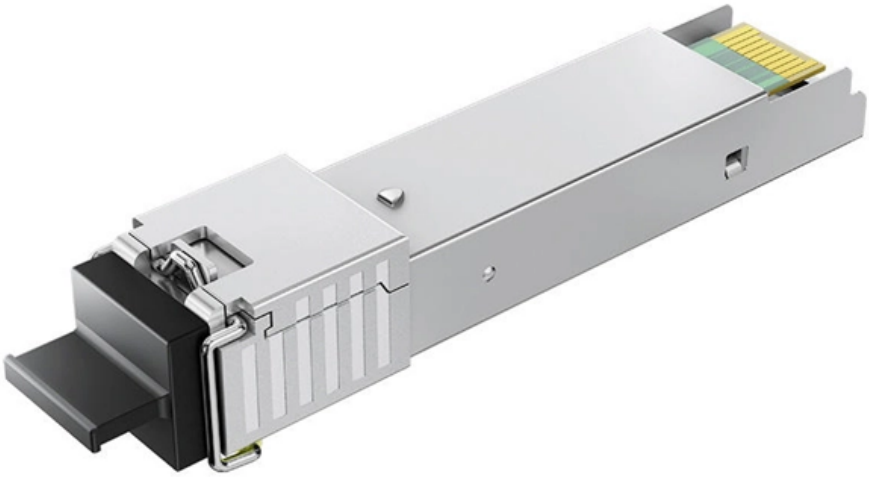
FRINDEL OPTICS

High-rise cable tray branching



Overview

Fittings (Bends and Tees): These components allow the system to change direction and branch out. Is your cable tray system optimized for safety, dependability, space and cost savings?

Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. These trays ensure that cables remain organized, accessible, and safely supported, especially in large buildings where cable networks are extensive.
