

10km optical module transmission power

Overview

The SFP+ BiDi 10G 1330nmTX/1270nmRX transceiver module is designed for long distances data transmission up to 10km, with a 1330nm DFB transmitter, and a 1270nm PIN receiver. 10GBASE-LR is a 10-gigabit Ethernet optical standard that operates at 1310 nm over single-mode fiber (SMF), supporting link distances of up to 10 km.

10km optical module transmission power

How to Choose an SFP Optical Module?

For transmission distances less than 100 meters, the choice between the two requires comprehensive consideration. Data Security: Optical module
