

6700 Core Switch

Overview

The S6700 can function as an access switch in an Internet data center (IDC) or a core switch on a campus network. The S6700 has industry-leading performance and provides line-rate 10GE access ports. Huawei S6700-24-EI, supporting 24 GE SFP/10GE SFP+ ports, is one of the Huawei S6700 series switches. This series delivers high-performance, super-reliable 10 GE switches with comprehensive Quality of Service and security capabilities.
