

8-core optical fiber splicing reel model and specifications

Overview

FTTH splicing machine AI-7/8 uses the latest core alignment technology with auto focus and six motors, it is a new generation of fiber fusion splicer. It is fully qualified with 100 km trunk construction, FTTH project, security monitoring and other fiber cable splicing projects. The Signal Fire AI-8C optical fiber fusion splicer is the successor to the AI-8 model. The manufacturer slightly changed the design and housing of the device, and redesigned the power and charging system, further increasing its reliability. Elevate your fiber optic installations with the ZCFFSAI-8C Fiber Fusion Splicer, a.

8-core optical fiber splicing reel model and specifications

New AI-8C Automatic Optical Fiber Fusion Splicer

The fusion machine is especially suitable for optical fiber and cable projects, maintenance scientific research, electric power, and other communications. Our
