

ABB Low Voltage Busbar

Overview

ABB WavePro-R Cast Resin Busway is a high performance low-voltage busbar system. The cast resin forms an external surface which provides a watertight barrier around the current carrying conductors. ABB's Control Room offering includes a comprehensive range of solutions designed to optimize the operator workspace for critical 24/7 processes across various industries. ABB busbar systems enable safe and easy cross-wiring of miniature circuit breakers, residual current devices and other Modular DIN-Rail products. 10 products available Need Busbar?

Contact our team for competitive pricing and availability on ABB busbar. IEC61439 and UL508 tested solution only for the 250A SMISSLINE TP Power Bar System Complete solution in the same enclosure: Incoming breaker and outgoing breakers: No additional wiring needed, Safe, Very Flexible The solution is built for a vertical design with one or two busbar system in one.

ABB Low Voltage Busbar

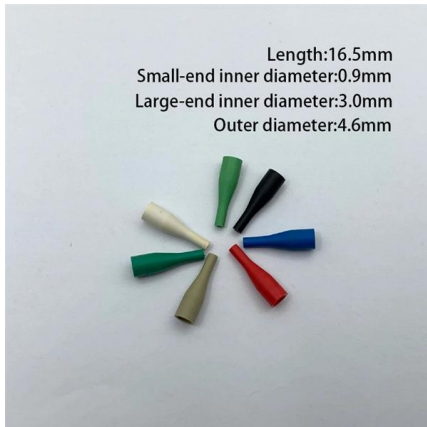

ABB Low voltage distribution system

The enclosure uses ABB's durable and resistant cabinet which is tested according to SS-EN 61439-1,-5 for use in public environments. The enclosure is in its shape and function compatible with the rest of
