

ADS Fiber Optic Cable Manufacturing

Overview

ADS incorporate innovative design concepts in Fiber Optic Cable assembly to meet harsh environment requirements using connectors such as Expanded Beam Connectors, CTOS/ TFOCA-II®, D38999, ARINC 801, M29504, ODVA and others for Aerospace, Defence and datacentre segments. AFL-ADSS® (All-Dielectric Self-Supporting) fiber optic cable is a non-metallic cable which supports its own weight without the use of lashing wires or messenger cables. It is available in configurations ranging from 2 to 288 cores with single and double jackets, supporting pole spans up to 700. Double jacket designs provide additional protection to the fibers for longer span lengths and higher strength requirements. Need Help ?

ADSS (All-Dielectric). Our cable assemblies are used in military, avionics, Naval and Industrial applications around the world. As China's leading ADSS fiber optic cable manufacturer, GL FIBER takes pride in producing All-Dielectric Self-Supporting (ADSS) cables using only the highest-grade raw materials while offering unbeatable factory-direct pricing.
