Introduction to Aerial Fiber Cables

Commonly used in optical communication, aerial fiber optic cables are very common these days and can be seen hanging on the poles in your

[Contact Us](#)

The FOA Reference For Fiber Optics -Outside Plant

Since aerial cables are expected to last a very long time, the messenger wire and lashing wire material should be chosen appropriately, including corrosion

Aerial Fiber Optic Cable Overview and Installation Guide

The scene of aerial cables hanging in the pole is ubiquitous in our daily lives. Unlike other common fiber optic cables, this kind of optical cable is designed to adjust to the harsh outdoor

Aerial Fiber Deployment: Messenger Strand and Lashing Wire

A steel messenger is a stranded steel cable that acts as a support structure to which fiber optic cable is tied (lashed) by way of steel lashing wire. The steel messenger acts as a structure that supports the
