

Angola Wholesale Bending-Insensitive Fiber Optics OM4

Overview

Get OM4 multimode fiber optic cables 50/125 with bend insensitive fiber design that support 40G/100G cabling. YOFC MaxBand ® OM2+ Bending Insensitive Multimode Fibre complies with or exceeds ISO/IEC 11801-1 OM2 specification, IEC 60793-2-10 A1-OM2 specification, and TIA-492AAAF A1-OM2 specification. These fiber cables use a low-index trench within the glass, allowing the optical light to reflect back through the core and onto its. It provides for best macrobending performance and supports high-density packaging cables, smallest bend-radii and challenging installation situations in advanced data centers.

Angola Wholesale Bending-Insensitive Fiber Optics OM4

Indoor/Outdoor Pre-Terminated Multifiber Optic Cables

FS offers pre-terminated multifiber optic cable assemblies at wholesale price that save much installation costs and times for indoor/outdoor fiber optic cabling systems.
