

Are galvanized aluminum-magnesium cable trays expensive

Overview

- Steel cable trays: \$8-15 per foot for galvanized and powder-coated options with highest strength-to-cost ratio
- Aluminum systems: \$7-12 per foot offering 40% lighter weight with good corrosion resistance
- Fiberglass trays: \$10-18 per foot providing superior chemical and. Maintenance cost: The ongoing expenses associated with cleaning, repairs, and replacements. The following is an easy reference to the most popular materials in 2026: Pre-Galvanized (PG): It is the most.

Are galvanized aluminum-magnesium cable trays expensive

What is the cost of a cable tray?

Steel cable trays are typically more economical. They're strong and durable, which makes them a popular choice for many industrial applications. However, if you need a steel tray that's galvanized for
