

Australian Relay Protection Tester Manufacturer

Overview

RMS Mors Smitt is an Australian company and part of the Wabtec corporation; dedicated to the design, manufacture and distribution of high quality electrical engineering products. Protection relays are the cornerstone of electrical system safety, ensuring faults are detected and cleared swiftly with minimal disruption to the wider network. Given their complexity and critical role, rigorous testing is required at every stage of the asset lifecycle—from development and. ESB Power provides field technicians and engineers to provide testing, commissioning and maintenance services for protective relay devices, auxiliary control equipment and SCADA systems for all major manufactures. Factory Acceptance Testing (FAT), Site Acceptance Testing (SAT), Phased commissioning or loads testing.
