

Bangladesh Internet Data Center

Overview

Felicity IDC Limited is Bangladesh's first purpose-built, carrier-neutral Uptime Tier III Certified data center, offering 100,000+ sq. The data center market in Bangladesh is experiencing a significant surge in investment and development, driven by the growing demand for digital infrastructure to support the country's expanding. Bangladesh's rapid digital transformation—driven by cloud adoption, fintech growth, e-governance, e-commerce, and telecom expansion—has made reliable data center infrastructure a national priority. From colocation and managed hosting to disaster recovery and cybersecurity, modern Bangladeshi. Their expertise in data management and storage solutions, including high-performance all-flash arrays, positions them as a key player.
