

Bolivia installation of 800G optical module 100G

Bolivia installation of 800G optical module 100G

Evaluating and Validating 800Gb Optics with the

With 800G optical modules, we use 100G electrical lanes using PAM-4 signaling. Optically, we may have 100G or 200G per lambda PAM-4, or complex phase and polarization for coherent.
