

Burkina Faso Well Temperature Measurement Optical Cable Joint

Burkina Faso Well Temperature Measurement Optical Cable Joint

Stream temperature modeling using fiber optic distributed temperature

High spatial and temporal resolution water temperature measurements, using DTS, allow to model and to control stream temperature evolution in the Tambarga's basin (Burkina Faso).

FIBER OPTICS: Downhole Fiber-Optic Monitoring: An

It has been an impressive comeback for a technology that once stood on the brink of failure. The upstream oil and gas industry has largely resolved

[Contact Us](#)

OPTITEMP TRA-G10 For surface temperature measurement in

Monitoring the in-situ temperature is key for the characterization of a seasonal geothermal energy storage. Distributed fiber-optic temperature sensing (DTS) systems provide temporally and

[Contact Us](#)

distributed fiber-optic sensing

18 geothermal well with a 3.6 km long fiber-optic installation mounted to a 3/4" sucker-rod by using both DAS and temperature sensing (DTS) data. During cold-water injection, we obs and migrate up- a 21

New methods in geophysical exploration and monitoring with DTS and

In the HE-35 high-temperature geothermal well (Iceland), a cable with a "hermetic" carbon/polyimide-coating fiber was installed, also to avoid the effect of hydrogen darkening.

Temperature Measurement Using Optical Fiber Methods: Overview

The paper deals with the overview of fiber optic methods suitable for temperature measurement and monitoring. The aim is to evaluate the current research of temperature measurements in the interval

[Contact Us](#)

Application of Coiled Tubing Distributed Optical Fiber Temperature

The results of distributed optical fiber temperature monitoring test of coiled tubing show that the test well has completed the temperature acquisition and leakage detection of deep and whole wellbore after

[Contact Us](#)

Borehole Temperature Measurements using Distributed

Distributed Optical Fibre Temperature Sensing (DTS) offers a lot of basic advantages: *
Measurement of temperature and position continuously over

[Contact Us](#)

Temperature Measurement Using Optical Fiber

The paper deals with the overview of fiber optic methods suitable for temperature measurement and monitoring. The aim is to evaluate the current

[Contact Us](#)

Fiber Optic Temperature Sensing and Measurement , Luna

In this study, we installed two fiber optic cables with different designs into a new well, a soft-flat cable and a stainless-steel cable, for distributed fiber optic sensing in cementing and water

[Contact Us](#)

OPTITEMP TRA-G10 For surface temperature measurement in

The OPTITEMP TRA-G10 is a clamp-on surface temperature assembly (RTD) with spring-loaded tip. The resistance temperature device is suitable for temperature measurement on pipes, storage tanks

[Contact Us](#)

Fiber Optics , GEO PSI

Utilizing Multi-mode Fiber Optic cables, Distributed Temperature Sensing (DTS) provides quality downhole temperature data and is applicable in a
