

Cabinet Cabinet Wiring Price

Overview

Expect a total range from about \$150-\$900 for common fixes to \$1,200+ if substantial internal rerouting or cabinet modifications are required. Per-unit costs commonly appear as \$2-\$6 per linear foot for wiring replacement, with higher rates for specialty AV wire or shielded. Typically, repairs to home theatre cabinet wiring cost between a few hundred and over a thousand dollars depending on accessibility, wiring type, and whether any components must be replaced. The main cost drivers are labor time, cable length, and any required electrical or AV hardware upgrades.
