

Calculation of Standard Labor Costs for Cable Trays

Overview

TL;DR: Basic wireway systems cost \$8-15 per linear foot, while heavy-duty cable tray installations range from \$12-25 per foot including materials and basic installation. Cable tray installation cost per meter varies by specifications; GangLong Fiberglass offers kits for raised floor system and facility needs. Cable trays are vital in electrical installations, providing secure pathways for power, communication, and control cables across residential, commercial, and industrial. Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation. Total Savings Output This guide is written for developers, EPC contractors, and project managers responsible for commercial, industrial, or data-center projects where cable tray systems represent a significant portion of MEP costs.
