

China Tower Mobile Communication Tower

Overview

China Tower Corp, a mobile communication infrastructure company that runs almost all of the country's telecom towers, is beefing up innovation application of its digital infrastructure after the company played a pivotal role in helping the nation build the world's largest. 84 million tenants, but revenue growth is now led by smart towers, DAS, and energy units. The company installed approximately 745,000 5G base-stations during the year, with more than 96 percent of sites delivered through sharing existing network. Just one year later, in 1987, Guangzhou built its first wireless base station, officially declaring.
