

# Composition of a 24-core optical cable

## Overview

---

0 standards, it features 24 single-mode fibers, corrugated steel armor, and UV-resistant HDPE sheath. Designed for underground ducting and direct burial, it ensures long-distance data transmission with minimal loss. A 24 core fiber optic cable is a high-capacity optical cable designed to support multiple data channels simultaneously, making it ideal for modern telecommunications, enterprise networks, and data center infrastructure. SABA 24 cores distribution fiber optic cable is constructed with loose tube fibers, aramid yarn strength member, LSZH is metal free outdoor cable. Enbeam OM4 Multimode CST Armoured Fibre Optic Cable Loose Tube 24 Core 50/125 LSOH Eca Blue, part of a huge range of OM4 fibre optic cables fully stocked at Mayflex. The Central Tube Optical Ground Wire (OPGW) is surrounded by single or double layers of aluminum clad steel wires (ACS) or mix ACS wires and aluminum alloy wires, 24 Core OPGW Cable design is fully adapted to the most common electric line needs.

## Composition of a 24-core optical cable
