

Core Switch OS6900

Overview

1RU core switch and data center switch with low-latency, wire-rate, non-blocking design, featuring 10 GigE, 25 GigE, 40 GigE, and 100 GigE interfaces. Requesting support for upgrading firmware of our customer's OS6900-X20 model switch to the appropriate version at the earliest. They offer high performance and extremely low latency Layer-2 and Layer-3 switching for campus and DC fabric networks.

Core Switch OS6900
