

Cut the fiber optic cable at home

Overview

Cutting the fiber optic filament or cable is not as hard as it might seem. Take a sharp blade or wire strippers and cut through the jacket material, only then pull off the jacket. Accidental cuts, breaks, or other damage can disrupt your network and cause costly downtime. With the right tools and techniques, you can efficiently repair damaged fiber cables and restore.

Cut the fiber optic cable at home

What is the best way to cut fiber optic cable?

By following these guidelines, you can effectively cut fiber optic cable with precision and care. This ensures the cable maintains its performance characteristics and
