

Czech low-voltage explosion-proof distribution box quality

Overview

The shell is made of high-density aluminum alloy one-time molding (maximum size 750mm*750mm*480mm), and the surface protection adopts electrostatic spraying epoxy plastic powder process, and the sealing strip between the box body and the box cover can be optionally installed. CZ1490 explosion-proof junction box (IIB+H, IIIC/Db), with EU ATEX explosion-proof certification, EAC Customs Union explosion-proof certification and China CCC certification, meets the latest international explosion-proof standards, and can achieve dual explosion-proof protection for both gas and. Options range from Ex d (flameproof enclosure) to Ex e (increased safety) and Ex i (intrinsically safe) right through to Ex p (pressurized housing), as well as combinations of different explosion-protection types – always bearing in mind the most efficient solution for your application. From its global facilities ABB manufactures a wide range of ATEX, IECEx, UL, CSA approved electrical products for hazardous area applications. Need help choosing the right product?

Contact our experts or request a quote today. Rated voltage:250/400V;50/60HzAtexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution.

Czech low-voltage explosion-proof distribution box quality

Atex Certified Junction Boxes, Terminals, Sockets

These explosion proof junction boxes / terminal boxes, plugs, sockets & connectors are for use in explosive atmospheres in compliance with the ATEX 94/9/EC
