

Delivery date for 10G optical receiver

Overview

The delivery date applies to the inventory items purchased by 4:00PM (UTC/GMT+1) on business days. MACOM offers PIN photodiode based photoreceivers in a variety of packages, including OEM module and instrument-style. A wide range of 10G solutions are available for applications up to 15 Gb/s covering 800-1650 nm wavelengths. Cisco's family of 10-Gbps symmetrical passive optical network (XGS-PON) Optical Network Terminals (ONTs) delivers flexible, high-performance broadband connectivity for a wide range of fiber-to-the-premises use cases, including residential spaces, Multidwelling Units (MDUs), Small Office/Home Office. 10GBASE-LR is a 10-gigabit Ethernet optical standard that operates at 1310 nm over single-mode fiber (SMF), supporting link distances of up to 10 km.

Delivery date for 10G optical receiver

10G SFP+ LR Optical Transceiver

Description: Opway' OP3910D is a very compact 10Gb/s optical transceiver module for serial optical communication applications at 10Gb/s. The OP3910D converts a 10Gb/s serial electrical data stream
