## What is a Pigtail Connector? A Complete Guide

Q: What is the difference between a pigtail connector and a standard wire nut? A: A pigtail connector typically refers to a connector with terminals or

[Contact Us](#)

Optical splitter cassette type refers to the port 2.0mm / 2.0mm clip-on fiber multichannel direct output with a plastic box packaging protection and easy to use.

Optical splitter rack mount type is using metal box packaging which can be installed in 19" frame or cabinet.

Optical splitter LSA box type is made by flame retardant material box or plate packaging. Mainly suitable for cable joints fiber box and wall-mounted terminal box.

Optical splitter mini type refers to the port 0.9mm clip-on fiber multichannel direct output with a compact design and easy to use.

### Direct output pigtail fiber optic terminal box , 4/6/8/12/24 core

Direct-output pigtail fiber terminal box: the "stabilizer" for fiber deployment If you're renovating or upgrading your home network lately, you've definitely heard the term: fiber optic terminal box. This is
