Double-hanging optical cable on high-voltage tower

Double-hanging optical cable on high-voltage tower

Optical Fiber Cables Near High Voltage Circuits

Due to the influence of factors such as tower configuration, line phasing, etc., Corning Optical Communications recommends that the owner/operator of the power line be consulted for assistance

Contact Us

Hanging cable

A cable is suspended between two towers like a power line between two towers. Assume that the towers are on a level parcel of ground but the heights of the towers maybe different.
