

E2000 Connector Remote Monitoring Type Manufacturer

Overview

Diamond is the inventor of the E-2000® connector, which can be found around the world in a wide variety of applications, especially for critical transmission points where reliability is utmost concern. Combined with R&M's quality requirements for raw materials, design, and workmanship, it guarantees the most stable transmission performance over the entire 25-year system warranty. The thumb-latch and frame are available in eight distinct configurations (Which in multiple-service patch facilities. Compact DIAMOND solutions for wall mounting, outdoor locations and decentralised fibre distribution. The E2000 connector provided by HYC has the advantages of more convenient insertion and removal, low insertion loss and high compressive strength.
