

Earthquake-resistant cabinet for rail transit 800mm depth

Overview

Heavy-duty, earthquake-resistant rack system designed for high-density IT environments in seismic-prone regions. Optimized 800mm wide reinforced structure for superior stability and maximum protection. Welded, steel enclosure engineered specifically to protect equipment in areas with seismic activity and satisfy Bellcore Zore 4 requirements. To add cut-outs, change color or see more options for 20630-286, click Customize below: Use left. Eaton Seismic Cabinets are performance-tested to EIA-310-E, Seismic Zone 4 (NEBS GR-63-CORE) standards.

Earthquake-resistant cabinet for rail transit 800mm depth

Seismic Cabinets

For Optical Distribution Frame installations, DCX Seismic Cabinets are fully configurable, front-access cabinets that serve as a high-density fiber interconnect
