

Eastern European Stainless Steel Cable Tray Span

Overview

EAE cable trays and ladders provide high-strength cable protection that protects the cables from external factors. 01 Manufacturer: Subject to compliance with these specifications, Eaton's B-Line series cable tray systems shall be as manufactured by Eaton. Safe working loads are represented graphically as shown and are based on the cable tray being continuous over four spans or more. Clear cable routing – Organized and safe cable management, easy maintenance, helps prevent failures.

Eastern European Stainless Steel Cable Tray Span

Series 3 & 4 Stainless Steel Specification Document

Rung spacing in radiused fittings shall be industry standard 9" and measured at the center of the tray's width. Each rung must be capable of supporting a 200 lb. concentrated load at the center of the cable
