

Energy-saving GPON equipment for FTTH

Energy-saving GPON equipment for FTTH

LoRawan outdoor base station

- * Industrial Internet gateway
- * Compatible with LoRaWAN network,
- * ClassA/B/C mode
- * Support 8/16 channel
- * Supports PoE power
- * supply and backup battery power supply
- * 10KV lightning protection

Making FTTH Greener

Making FTTH Greener - Reducing FTTH Power Consumption by 10 Fold 23 September 2012 The purpose of this paper is to discuss different approaches to the improvement of energy

A Framework for an Energy-Efficient Bandwidth Allocation Approach

In this article, an approach for the design of an energy efficient bandwidth allocation mechanism for the shared upstream communication link in the Fiber to the Home (FTTH) access network is presented
