

Enterprise Huawei Optical Switch

Overview

The CloudEngine S5732-H Series Hybrid Optical-Electrical Switch is a new generation of 10 GE access switch, featuring 24 optical and 24 electrical downlink ports plus four 25 GE uplink ports and either two 40 GE or two 100 GE uplink ports, with one extended slot. Based on Huawei's Versatile Routing Platform (VRP), CloudEngine S5736-S supports enhanced Layer 3 features, simplified Operations and Maintenance. The short-distance optical return loss positioning technology enables precise and efficient identification of contaminated or loose optical modules. All other trademarks and trade names mentioned in this document are the property of their respective holders. Are Attenuators Required in the Case of Short-Distance Connection Using Single-Mode Optical Modules?

Why an Interface Does Not Enter the linkdown State When Its Receiving Power Reaches the Lower Threshold?

Does a Port Frequently Alternate Between Up and Down States When a Non-Huawei-Certified.
