

Fiber Fiber Tray

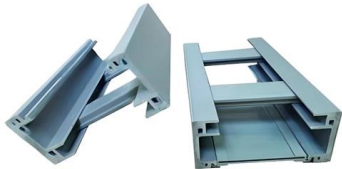

Overview

These trays are typically installed within fiber optic enclosures and patch panels. Choose from racks, panels, modules, splice trays, ethernet fiber switches and other structured cabling components. Our Fiber Cable Tray System is a comprehensive raceway solution for data center, enterprise, central office, and mobile switching center applications. Organize fiber connections with ease. The fiber optical splice tray for FHD® (FS High Density) series rack mount enclosure shall house and protect fiber optic splices, guarantee proper fiber cable management and bend radius control, and allow for clear labeling and logical organization of the fiber optic splices. Fibre casting, also known as moulded pulp, is a sustainable material produced using a wet pressing process.

Fiber Fiber Tray

Fiber Molding Tray -- Biodegradable , Made in Germany

From egg packaging to fruit and vegetable trays, electronic inlays, and cosmetic trays: the fiber molding tray is a true all-round performer among sustainable packaging formats. We manufacture your fiber
