

Fiber Optic Communication EXT

Overview

is used by telecommunications companies to transmit telephone signals, Internet communication and cable television signals.

Fiber Optic Communication EXT

Fiber-optic communication

OverviewApplicationsBackgroundHistoryTechnologyParametersComparison with electrical transmissionGoverning standards

Optical fiber is used by telecommunications companies to transmit telephone signals, Internet communication and cable television signals. It is also used in other industries, including medical, defense, government, industrial and commercial. In addition to serving the purposes of telecommunications, it is used as light guides, for imaging tools, lasers, hydrophones for seismic waves, SONAR, and as sensors to measure pressure and temperature.
