

Fiber optic LC clip type

Overview

The Lucent connector, commonly known as the LC connector, is a small form factor type of fiber optic connector used in high-density aerospace applications. A fiber optic connector is a mechanical device used to align and join optical fibers, enabling light to pass through with minimal loss. An optical fiber connector enables quicker connection and disconnection than splicing.

Fiber optic LC clip type

LC Fiber Connectors

LC Fiber Connectors APPLICATION r faster terminations. Simplex connectors include one LC connector, one boot, a crimp ring (not included for 900-micron), a dust cap, and duplex LC
