

Fiber optic cable 78 feeder

Overview

Our 7/8" feeder cable meets the high standard quality requirements of Rosenberger, Amphenol, Commscope and substitute of 123-3-50, AVA5-50, RFS LCF78-50JA, etc. Product Name: 7/8 inch Feeder Cable Impedance: 50 ohm Inner Conductor: Copper-clad aluminum Outer Conductor:. At RFS we specialize in the design and manufacture of premium, future-ready cable solutions for customers across the globe. With over 120 years of heritage in the industry, we build reliable and long service life connectivity systems. GL's feeder cables have reliable performance, excellent electrical characteristics and flexibility, low insertion loss & attenuation, low passive intermodulation (PIM). HUBER+SUHNER offers a wide range of FO cables, connectors, cable assemblies, fiber management and cable systems designed withstand the harsh environments of onshore and offshore applications.

Fiber optic cable 78 feeder

Feeder cables

Feeder cables are Fiber Optic Cables that run out from the Access Node up to the Fiber Distribution terminal. The number of fibers in the cable will depend on the build type.
