

# **Fiber optic cable Adss-AT16B1**

## Overview

---

ADSS fiber optic cable designed for outdoor aerial installation, providing high durability, UV resistance, and stable signal transmission for FTTx networks. It consists of single-mode or multi-mode fibers housed in loose tubes made of high-modulus plastic materials. When it comes to outdoor fiber optic communication, ADSS 1 (Aerial Dielectric Self-Supporting) fiber optic cables stand out for their unique features. The cable jacket incorporates an inner polyethylene jacket (optional), aramid yarns and an outer polyethylene or AT (anti-tracking).
