

Fiji FRP Cable Tray Elbow Installation

Overview

The flexible elbow for FTE50 cable trays in FRP material makes it easy to create horizontal direction changes on the tray's span. Our company offers a wide range of GI threaded rod and fastener that are manufactured from top grade materials as per the international standards. Compared with traditional galvanized steel trays, FRP cable trays are lighter in weight, corrosion resistant, non-magnetic and electrically insulating, which makes them ideal for chemical. Typically, installation guidelines will also depend on the project specification required by the client, but this will.
