

French optical module communication company

Overview

France, through CEA-Leti and a cluster of Grenoble-based companies, is one of the world's three centers of excellence in this technology alongside IMEC (Belgium) and MIT (United States). Optical communication companies in France are leaders in the field of telecommunications technology. IDEA OPTICAL is the French leading company in optical fiber cable connectivity and cable management, with more than 20 years of expertise. It is such a huge success! A fruitful year for TELEO! CNES, Airbus Defence and Space and the start-up company OGS Technologies have just successfully.
