

GDZ type distribution box

Overview

These are specialized, compact switchgears used in cable-based power distribution networks at voltages like 12kV. In this guide, we'll break down the 12 main types of distribution boxes in a way that's easy to understand. We'll chat about what each one does, where it shines, and then dive into how to choose the perfect box for your needs. The distribution box (DB box) helps safely and efficiently distribute electrical power. Equipment type is used throughout the traffic module, to specify whether a container or loose cargo is being used.
