

Gigabit PoE Power Supply for Fiber Optic Switches

Overview

The FiberPoE provides Gigabit bi-directional data transport between twisted-pair Ethernet cable and fiber optic cable, and injects DC power to the Ethernet cable for passive PoE. The FiberPoE is a low-cost solution for outdoor deployments that require long-distance runs to reach the PoE device. A streamlined interface using certified profiles with settings for any AV or broadcast application assigned to ports with just a few clicks. The Cisco Catalyst 1000 Series switches are fixed-configuration, Gigabit Ethernet switches that provide entry-level enterprise-class Layer 2 access for branch offices, conventional workspace, and out-of-wiring closet applications. Compact PoE switch with built-in UPS and smart battery charger - because your CCTV cameras and access points deserve true off-the-grid resilience. [2 in 1 PoE Device] Fiber Media Converter and 2 RJ-45 port PoE/PoE+ injector All in One Device, supporting IEEE 802.

Gigabit PoE Power Supply for Fiber Optic Switches

Meraki Switches

Meraki MS Switches combine enterprise-grade hardware with cloud management, allowing your organization to scale effortlessly. Explore the models.
