

Grinding machine for fiber optic pigtails

Overview

Fiber optic polishing machines or Grinding Machine play an important role in fiber optic Patch Cord and Pigtail Production Line. This revolutionary tool is designed for industry professionals who require high-quality, reliable, and efficient polishing and grinding for fiber optic plugs. The grinding quality is no longer overly dependent on the skills and experience of the operators.

Grinding machine for fiber optic pigtails

Optic Fiber Patch Cord Polishing Machine (Four Coils) / Grinding

Applies To A Wide Range Of Equipment, With No Need Of Any External Equipment, An Area Of Less Stable Production. As Long As Necessary In Accordance With The Replacement Of Fixtures, It Can
