

Gyftza-4a1b multimode fiber

Gyftza-4a1b multimode fiber

GYFTA Fiber Optic Cable New Multimode 4 Core Optic

With four multimode fiber cores, this cable is suitable for applications where moderate distances and high bandwidth are required. The cable's design

GYFTZA Flame-retardant Stranded Loose TubeFRP APL

Product features Good mechanical and thermal performance. FRP as the central strength member. Hydrolysis resistant loose tube. Tube filling compound ensures critical protection of fiber. Ignited

[Contact Us](#)

Multi-mode optical fiber

Because multi-mode fiber has a larger core size than single-mode fiber, it supports more than one propagation mode; hence, it is limited by modal dispersion, while
