

H3C Optical Module Brand Introduction

Overview

The H3C 10G series optical modules use advanced technology, with the characteristics of low power consumption, high-speed transmission, hot-swappable support, and low cost, to meet the urgent needs of modern networks for stable and efficient data transmission. Optical transmission features low loss and is fit for long distance transmission. Moduletek Laboratory has tested samples of this product to help users better understand its performance specifications and actual on-site application behavior. This H3C SFP-GE-SX-MM850-A optics is a high performance and cost-effective small form factor pluggable transceiver. , Limited, commonly referred to as H3C, is a provider of digital solutions in the IT industry, specializing in providing a wide range of products and services that include networking equipment, servers, storage, and integrated digital solutions.

H3C Optical Module Brand Introduction

Classification and Models of H3C Active Optical Cables

Common classifications of H3C AOC active optical cables include: 100G QSFP28 Cable, 40G QSFP+ Cable, 25G SFP28 Cable, 10G SFP+ Cable, etc. Below, Walsun will provide detailed

H3C SFP-XG-LX-SM1270-BIDI Optical Module Sample

H3C provides the SFP-25G-LR-SM1310 optical module, which supports 25G Ethernet transmission up to 10 km over single-mode fiber. Moduletek Laboratory

Support

Optical modules transmit signals over optical fibers. Optical transmission features low loss and is fit for long distance transmission. H3C devices support optical module models of different specifications.
