

How many matte finish upgrade modules can be installed

Overview

You can have a maximum of 3 upgrade modules per component and per inventory page. Since ships and suits have two inventory pages that you can put tech in, this means 6 modules max - 3 on the general tab and 3 on the tech tab. Technology modules does not have a limit, but you can only ever install 1 mod per type of technology. I'm still buying and testing out combos so I can't be 100% sure how accurate this is. They can be bought with Nanite Clusters from Technology Merchants in space stations.

How many matte finish upgrade modules can be installed

Upgrade Module

The short answer is: you can install a maximum of three "module" upgrades of the same type per inventory tab (General and Technology). This means a potential total of six of the same
