

How much does an Ericsson optical module cost

Overview

Buy Ericsson SFP+ modules, including 10G SR, CPRI LR Lite, and XFP-10GE-ER models. Designed for wireless applications with an extended temperature range (-20°C to +85°C), the trans. All set! You can manage payments in the Klarna app or website A higher initial payment may be required for some consumers. We have Ericsson brand new, genuine optical modules you urgently need—fully compatible with Ericsson's RAN, core, and transport platforms. Can you tell me the difference between DWDM tunable optical module and standard DWDM optical module?

The biggest difference between them is that DWDM tunable optical module can adjust the wavelength, and usually worked as a spare optics, while the standard DWDM optical module is fixed and specific.
