

# **How much does copper fiber optic cable cost per meter**

## Overview

---

The price varies based on the mode type (Singlemode or Multimode), core count, and whether the cables are pre-terminated or require field termination. 00 AUD, depending on jacket type (indoor, outdoor, LSZH) and core count. Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Material Costs: Copper cables are cheaper than fiber optic cables, making them a seemingly attractive choice for businesses with limited budgets. Installation: Copper's ease of installation also contributes to its lower upfront costs.
