

How much does one ton of ADSS optical cable cost

Overview

If you over-specify to a 300 m span AT-sheath cable at \$330/km, you are now at \$165,000 — a \$40,000 difference just from spec inflation. The price of ADSS (All-Dielectric Self-Supporting) fiber optic cable can vary significantly depending on the design specifications, installation environment, and span length. For example below three cable structure □ ASU fiber optic cable single jacket adss fiber optic cable double sheath adss fiber. ADSS cable cost may be determined by the following factors, among others: Number of Fibers (Core Count) - More fibers = higher cost. Sheath Type - Consequently, the price of an anti-tracking sheath (typically referred to as AT) is higher than that of a standard PE one.
