

How to Choose an Outdoor Distribution Box in El Salvador

Overview

When choosing an outdoor distribution box, you need to pay attention to the following points: Safety: The outdoor distribution box is used to protect the circuit, so it must have sufficient safety performance, including waterproof, lightning protection, and corrosion resistance. It is best to use an outdoor waterproof box with a waterproof effect of up to IP68, which is waterproof and dustproof. We'll decode NEC Article 312 requirements, compare NEMA vs IP ratings, analyze busbar sizing calculations, and provide specification decision matrices for different applications. Material choice, locking hardware, gasket design, and thermal management affect longevity.
