Overview

The most reliable approach is to set the Service Type at the type level, using predefined conduit and tray types in your template. Is there a way that I can change the colors of 3 different cable trays to 3 different colors that will still display when I export to navisworks?

06-30-2022 07:11 AM Hi. In this comprehensive video tutorial, we dive deep into the world of Revit Electrical Filters, unlocking their full potential to streamline your design process. When using Revit to design your Cable Tray, in many system drawings there is a need to differentiate between different types of Cable Tray elements in coordination and dedicated electrical drawings.
