

How to find the telecommunications fiber optic cable pole

Overview

They don't carry electricity, so special tools like ground-penetrating radar (GPR) are needed to locate them. Whether it's a small fence or a big construction job, knowing where underground utilities are saves time and. However, locating these cables can be challenging without the right tools and knowledge. Are you responsible for locating buried telecom cables or other underground assets?

Telecommunication installers and repair technicians are often required to get up-to-speed quickly on new instruments and readily adapt to the world of locating underground fiber-optic and coaxial (CATV) cables. Quickly pinpoint the location of buried facilities with the 3M™ Electronic Marker System (EMS) for Cable TV and 3M™ Electronic Marker System (EMS) for Telephone.
