

Huawei All-Optical Switch 5700

Overview

Based on cutting-edge hardware and Huawei Versatile Routing Platform (VRP) software, the S5700 provides a large switching capacity, high reliability (double power slots and hardware Ethernet OAM), and high-density GE ports to accommodate 10 Gbit/s upstream transmissions. Huawei S5700 series Ethernet switches are next-generation energy-saving GE switches designed to provide high-bandwidth access and Ethernet multi-service aggregation. Why Does the S5700 Fail to Restrict User Access Through a Traffic Policy (V200) What is TACACS and How to Configure TACACS?

What is BPDU Protection and How to Configure BPDU Protection?

What Is a Trunk Link What Is Mirroring What If I Forget the Passwords of S200, S1700, and S5700 Switches (V200).
