

Huawei S9700 Optical Module

Overview

The S9700 provides high performance line cards, such as 8*40GE and 40*10GE line. This document describes hardware components of the S9700, including the cabinet, chassis, power supply facilities, fan modules, cards, cables, and pluggable modules for interfaces. You can find useful information about S9700 hardware components from this document. There are three types, S9703, S9706, and S9712, this series of switches have the advantages of high reliability, high flexibility, easy management and so on. This document is intended for network engineers responsible for network design and deployment. Huawei ET1D2G24SEC0 S9700 series 24 port Gigabit Ethernet optical interface board
